Subject: Education is priceless

To Members of the Appropriation Committee:

My name is Lauren Rumi. I am a senior in the diagnostic medical sonography program at Gateway Community College. Keep funds flowing to Gateway and to all of the community colleges. Gateway has given me the opportunity to succeed in academics, as well as experience athletics and social events. Gateway has been a place of hope for me and has taught me lessons I will be able to use in the community. Please allow students the chance to better themselves by keeping resources available to them.

Sincerely,
Lauren Rumi
